Cost: \$30.00 Per Person - **SECURE ONLINE REGISTRATION AND PAYMENT AVAILABLE**

Target Audience: This introductory level course, is designed for staff at all levels in behavioral health & other human agencies This is a repeat (and updated) presentation.

Description: This course provides a description of trauma and its impact on individuals seeking behavioral health & other human services. The prevalence of these issues is discussed and the course reviews the developmental, physiological, cognitive, and emotional results of experiencing of trauma for individuals. Information is provided on how individuals who have experienced trauma can remain affected, and how they present in behavioral health settings.

Program Learning Objectives: By the end of this introductory overview training, participants will be able to:

1. Discuss research that examined the health and social effects of adverse childhood experiences over the lifespan;
2. Discuss the comprehensive impact of trauma on individuals when traumatized
3. Describe the developmental, cognitive, emotional and behavioral results of trauma that can remain with Individuals throughout their lives if the trauma is not addressed.

CEUs:

3 Continuing Education Credit hours will be provided as follows: Social Work, PCB, CPRP, and APA

- 3 SW CEUs. As a CSWE accredited program, the Graduate School of Social Work and Social Research at Bryn Mawr College is an approved provider of continuing education for social workers, professional counselors and marriage and family therapists in Pennsylvania and many other states.
