The Behavioral Health Training and Education Network (BHTEN)
With Support from The Philadelphia Department of Behavioral Health/Intellectual disAbility Services (DBHIDS)

The Clinical Application of Neuroscience

Instructors:
Craig Strickland, PhD
Owner Biobehavioral Education and Consultation, LLC. Dr. Strickland’s degree is in Experimental Psychology/Neuroscience. He has lectured on the neurobiology & psychopharmacology of Mental Health and Addiction Disorders for over 15 years.

Winden Rowe, MSS
Owner Winden Rowe, MS, LLC private counseling and consulting practice, advocate and public speaker on trauma recovery

MS ROWE & DR. STRICKLAND HAVE NO REAL OR APPARENT CONFLICTS TO DISCLOSE - NO COMMERCIAL SUPPORT RECEIVED FOR THIS PROGRAM

Day/Date(s): Monday, June 19, 2017
Time: 9:00 a.m. to 4:00 p.m. (REGISTRATION/SIGN-IN BEGIN 8:30 AM)
Cost: $30.00 per person SECURITY REGISTRATION/PAYMENT ACCEPTED ONLINE
Location: Behavioral Health Training and Education Network (BHTEN)
520 North Delaware Avenue, 7th Floor, Suite 7C, Philadelphia, PA 19123
○ BHTEN IS LOCATED IN THE RIVerview PLACE BUILDING, ON THE SOUTHEAST CORNER OF DELAWARE & SPRING GARDEN: ENTRANCE ON SPRING GARDEN STREET

Intended Audience: The target audience are those individuals providing direct services to clients. Although the focus of the presentation is on traumatic exposure, trainees serving clients with additional diagnoses will benefit.

Course Description:
This workshop is designed to present material on the impact of traumatic exposure on the human nervous system & how to apply this research in a clinical setting. There are four components to this workshop. First, research relating to the biological impact of trauma will be presented. Second, the presented research will be translated into a language that clinicians can comfortably share with their clients. Third, specific clinical interventions based on altered biology will be discussed. Finally, trainees will be given the opportunity to share case studies with the instructors & each other in order to identify interventions that match clients’ symptoms.

Instructional Level: Introductory/Intermediate

Learning Objectives -- By the end of the presentation, the participant will be able to:
• Summarize the key components of the nervous system affected by traumatic exposure
• List the three key components of the limbic system as they relate to heightened emotionality
• Summarize the importance of translating neuroscience concepts and language for clients
• Describe the key biological outcomes of traumatic exposure in “user-friendly” language
• List the three levels of clinical intervention based on presenting symptomology
• Describe the poly-vagal theory as it applies to avoidance and numbing
• Recommend clinical interventions and strategies based on neurological changes that occur as a result of traumatic events or as a result of non-trauma related psychiatric diagnoses

CEUs: 5.5 Continuing Education Credit hours will be provided as follows:
Social Work, PCB, APA and IACET (5.5 IACET CEUs = 5.5 training hours)
Participants Must Attend the Entire Presentation to Receive Continuing Education Credits
& MUST SUBMIT A COMPLETED COURSE EVALUATION

Special Needs: CONTACT TIFFANY LIVINGSTON AT (215) 923-2116, EXT. 293
Weather Information: If for any reason the training is cancelled or time is changed an announcement will be available at 215 923-2116, ext. 401, beginning at 6:45 am the morning of the training.
Clothing Suggestion: Maintaining a room temperature that is comfortable for everyone is very difficult – Please wear layered clothing and/or bring a light sweater or jacket in case the room becomes too cool.

For directions, parking, cancellation policies, CEUs and other general information,
